FEATURES & BENEFITS

- Opens to 90 degrees for easy access to entire container
- Locks to protect container from theft and unauthorized dumping
- Built with UV-protected, impact-resistant high-density polyethylene (HDPE)
- Standard design is permanently mounted and travels with the container at all times

ROLL-OFF CONTAINER COVERS

Available in 3 Custom Mounting Configurations: All configurations open and close the same way

1 Standard

Cover is permanently mounted and travels with the container.

2 Removable

Cover can be easily transferred to other containers with a forklift.
(Does not travel with container)

3 Stand-alone

Cover is mounted on a frame that's attached to concrete slab or footing.
This stand-alone configuration allows containers to be swapped out from underneath cover.

(Optional 5' container guide rails with stops available)

ROLL-OFF CONTAINER COVERS

Ability to maintain total container functionality even when cover is securely fastened.

Locks to keep contents safe and prevent unauthorized dumping.

(Stand-alone option mounted to frame shown)

Opens to 90 degrees for access to entire container.

Optional forklift pockets make transferring fast and easy on removable model.

ROLL-OFF CONTAINER COVERS

To ensure proper opening and closing functionality there will be a gap of up to 1" between the cover and top of container.
